FED EX NO. 7742 9788 5526

January 28, 2019

Manager, Air Toxics Section SCDHEC Bureau of Air Quality 2600 Bull Street Columbia SC 29201-1708

Re: MACT II Excess Emissions and Monitoring System Performance Reports

Air Permit No. TV-2440-0005

Manager, Air Toxics Section:

The purpose of this submittal is to meet the quarterly excess emission reporting requirements applicable to the Resolute Forest Products – Catawba Mill associated with the National Emission Standards for Hazardous Air Pollutants from the Pulp and Paper Industry (40 CFR 63, Subpart MM). The sources covered under Subpart MM are the No. 2 Recovery Boiler, No. 3 Recovery Boiler, No. 2 and No. 3 Smelt Dissolving Tank Vent, and the No. 2 Lime Kiln. This submittal meets the requirements of the Excess Emissions and Continuous Monitoring System (CMS) Performance Report pursuant to Sections 63.867(c) and 63.10(c), respectively.

Excess emissions and CMS downtime for the reporting period were less than 1% and 5% respectively for all systems. Therefore, only the summary reports are attached as allowed in §63.10(e)(3)(vii) for the boilers, lime kiln, and No. 2 and No. 3 Smelt Dissolving Tank Vent.

Based on information and belief formed after reasonable inquiry, I certify to the best of my knowledge, that the statements and information in this submission are true, accurate, and complete.

This is the final MACT II report that Resolute FP US Inc. will submit for TV permit 2440-0005 because this permit is being transferred to New-Indy Catawba LLC pursuant to the application of ownership change submitted on January 25, 2019. Further communication on this matter should be directed to Bob Tourville at bob.tourville@new-indycb.com.

If you have any questions or require additional information, please contact Mike Swanson, environmental engineer at (803) 981-8010 or mike.swanson@new-indycb.com.

Sincerely,

David Clemmons Interim General Manager – Catawba Operations

## **SEMI-ANNUAL REPORT SUMMARY**

### GASEOUS AND OPACITY EXCESS EMISSION AND CONTINUOUS MONITORING SYSTEM PERFORMANCE

| Pollutant:                                       | Opacity  |  |
|--|--|--|
| Time Period:                                     | Minutes  |  |
| Reporting Period:                                | October 1, 2018 through December 31, 2018      |  |
| Process Unit Description:                        | No. 2 Recovery Boiler                          |  |
| Company:   | Resolute Forest Products – Catawba Mill        |  |
| Emission Limits:                                 | 35%  |  |
| Monitor Manufacturer(s) and Model Number(s):     | Teledyne Monitor Labs / Light Hawk 560 Opacity |  |
|  | Monitor  |  |
| Last CMS Certification or Audit Date:            | Certification: October 20, 2006                |  |
|  | Audit: September 13, 2018                      |  |
| Total Source Operating Time in Reporting Period: | 131,050 minutes                                |  |

#### **EMISSION DATA SUMMARY**

| Reason for Excess Emissions             | Duration (minutes) |                         |
|---|--------------------|-------------------------|
|   | Over 35%           | Over 20% for 60 minutes |
| A. Startup/Shutdown                     | 0                  | 0                       |
| B. Malfunctions                         |                    |                         |
| Process/Instrument System               | 0                  | 0                       |
| Control Equipment                       | 104                | 0                       |
| Fuel Problems                           | 0                  | 0                       |
| Other Known Cause                       | 0                  | 0                       |
| Other Unknown Cause                     | 6                  | 0                       |
| Total Number of Incidents               | 3                  | 0                       |
| Excess Emissions/Process Operating Time | 0.08%              | NA                      |

## **CMS PERFORMANCE SUMMARY**

| Reason for Monitor Downtime        | Duration (minutes) |
|------------------------------------|--------------------|
| Monitor Equipment Malfunctions     | 743                |
| Non-Monitor Equipment Malfunctions | 0                  |
| Quality Assurance                  | 94                 |
| Other Known Cause                  | 0                  |
| Other Unknown Cause                | 0                  |
| Total Number of Incidents          | 15                 |
| Percent Monitor Downtime           | 0.64%              |

There were no changes in the continuous monitoring systems, processes, or control devices since the last reporting period.
